WEBINAR

Forest and agroforestry innovations at your fingertips

8th October 2025
11:00 - 12:30 CET

Exploring the role of knowledge repositories

Capacity Building Material (CBM) from FOREST4EU
Knowledge transfer and repositories

Speaker: Giacomo Mezzetti

Organization: ETA florence renewable energies

Project: FOREST4EU

What is a knowledge repository?

Main characteristics:

- Centralized
- Organized
- Searchable

Main objectives:

- Collect
- Store
- Manage
- Share

FOREST4EU material and criteria for selecting the repositories

Established presence
The repository has to be online for a considerable time and known and used by practitioners in the forest and agroforestry sectors.

Thematic relevance
The repository's relevance to disseminate the innovations and good practices developed by the OGs engaged in the FOREST4EU project.

Accessibility
The repository has to be easily accessible.

Long-term availability
The repository is expected to remain online for the long term.

Effective communication
Good communication with the person or team in charge of the repository.

As a result of this analysis the chosen repositories were **Rosewood 4.0**, **Climate-ADAPT**, **Oppla**, **EU-FarmBook**, **Superb Gateway**, and **Zenodo**.

- Not all the CBM are present in each repository;
- Factsheets in all the repositories (172 in total);
- Total: 51 CBM uploaded on the website
- All the repositories selected are aligned with the FAIR (Findable, Accessible, Interoperable, Reusable) principles to enhance data sharing, innovation, and knowledge discovery.

EU-FarmBook

Climate ADAPT
SHARING ADAPTATION KNOWLEDGE FOR A CLIMATE-RESILIENT EUROPE

ROSE WOOD 4.0
Sustainable Wood for Europe
